Vol. I, No. 12

December 1957

NOVEMBER UNIFORM PRICE \$4.13

Dairy farmers will receive a uniform price of \$4.13 for November deliveries of Grade A milk to handlers under the South Bend-LaPorte, Indiana, milk order. The uniform price is based upon a butterfat test of 3.5 percent and will be adjusted by a differential of 7.1 cents for each one-tenth percent that tests vary above or below the 3.5 percent standard. This minimum price is subject to a 3 cent per hundredweight marketing service deduction, together with the authorized hauling charges and the 3 percent transportation tax on hauling.

#### PRODUCER RECEIPTS

The daily production has decreased 7.24 percent from October production, but is still 9.74 percent above the daily figure of a year ago. The average daily herd production has dropped below 500 pounds for the first time since last January. This is only a 4.24 percent decrease from October, showing that 3 percent of the decrease was the result of a decrease in number of producers. In the past two months, this market has lost sixty-one producers, or almost six percent of the total number they had at the end of September.

#### CLASS I SALES

On a daily basis, Class I sales were up slightly over October and about 9 percent higher than a year ago. Class I utilization of producer receipts was up to 82.2 percent, which is the highest utilization this market has had for several years. Class II utilization, or cottage cheese, has been running about 10 percent of producer receipts.

#### CLASS PRICES FOR DECEMBER

The Class I price for December will be \$4.27 per hundredweight for 3.5 percent milk, and \$3.85 per hundredweight for Class II. This is an increase of 1.5 cents over November, but is 18.6 cents lower than the December Class I price of 1956.

#### CHECK-TESTING

Checking of butterfat tests of non-member producers is done by the office of the Market Administrator each month by checking the composite samples and taking fresh milk samples. Fresh milk tests are used as a basis of payment when composite samples seem unsatisfactory.

#### Samples Run in November

Composite Samples	257
Fresh Samples	141
Handler Product Samples	450
Miscellaneous Inter-Handler Samples	13
Total	861
